

Profile

Motivated and results-oriented Front-End Developer with hands-on experience in ReactJS and NextJS, focused on building responsive, high-performance web applications. Proficient in integrating both modern and legacy technologies, with a strong grasp of state management using Redux and testing with Jest and React Testing Library. Eager to continuously learn and grow, currently expanding my skill set with Angular. Dedicated to writing clean, maintainable code and enhancing user experiences. Actively working on improving communication and collaboration skills to contribute more effectively to team success and development efficiency.
